To:Kundnani, Deepali L <dkundnani3@gatech.edu>

Hi,

Your application for the Conference Fund has been approved. I am cc'ing your department's travel coordinator (as indicated on your application). You have been awarded the amount from the Conference Fund (Worktag Designated: DE00002576):

$250

Your application for the Conference Fund has been approved. I am cc'ing your department's travel coordinator (as indicated on your application if you are a PhD student applying for CoE or CoS funds). Upon return from your trip, you will be reimbursed up to this amount, only after submitting ALL the following documents through the online Workday Financials system:
_____Original completed expense report
_____Proof of registration
_____Bank/credit card/debit card statement
_____Conference agenda

Spend authorization on workday must be submitted prior to your travel. The online Expense Report must be submitted for approval to the VP of Conference funds within 21 days of your return. Failure to do so will result in the reallocation of your funds to another student.

If you are a College of Engineering (COE) or College of Sciences (COS) doctoral student and have included an application for additional funding from either the COE or COS graduate conference travel fund, your department will receive a notification. Otherwise, please contact Sheri Calhoun (CoE) or Ashley Edwards (CoS).

If the total cost of your trip ends up less than the amount reported on your application, or your primary funding source(s) pay less than specified on your application, then your awarded amount may be reevaluated.

If you have any questions or comments, please contact us using the information below.

Cheers!
